

DIDSBURY PIONEER

Vol. XXII

THURSDAY OCTOBER 15

No. 41

Municipal District of Westerdale No. 311.

NOTICE.

PUBLIC NOTICE IS HEREBY GIVEN that there has been introduced in the council of Municipal District of Westerdale No. 311 a by-law of which the following is a short synopsis:

BY-LAW NO. 21.

By-law of the Municipal District of Westerdale No. 311, respecting the Prohibition of Animals from running at large.

Under the authority and subject to the provisions of The Domestic Animals Act (Municipalities) the Council of the Municipal District of Westerdale No. 311 enacts as follows:

Domestic Animals shall be prohibited from running at large in accordance with the following schedule—

Class of Animals	Period of Prohibition from running at large.	Area of Prohibition from running at large.
1. Horses	The whole of the year.	All that part of Westerdale Municipal District No. 311 lying to the south and east of the Little Red Deer River
2. Ases	"	"
3. Mules	"	"
4. Cattle	"	"
5. Goats	"	"
6. Geese	"	"
7. Sheep	"	"

Certified to be a true copy of proposed By-law No. 17.

A. McNAUGHTON,
Sec.-Treasurer.

And that a copy of the same may be seen in each of the following places—

Westerdale Municipal Office
Didsbury P.O.
Westcott P.O.
Westerdale P.O.

And further, that unless within thirty days from the publication of

Political Campaign

In connection with the forthcoming Dominion election, for the Red Deer constituency, in which Didsbury is now included, Bert Fisher is enumerator for East Didsbury, and C. Reiber enumerator for West Didsbury. Names of voters should have been registered before October 14th, but there is still time for those who have not as yet placed their names upon the list, and to give the opportunity the above enumerators will sit in their respective offices until Tuesday next, October 20th.

In connection with the voting at the Dominion election on October 29th, all who are desirous of casting a ballot on that occasion should bear in mind that as no election of this sort has been held for almost four years no voters' list is in existence.

Whilst it is expected the list to be used will be compiled from the provincial voters' list, it should be remembered that any who failed to vote on June 20, 1924, will have had their names struck off, and unless they register personally they will not be eligible to vote in the October contest.

A meeting will be held in the interests of Thomas Kercher, Liberal candidate for Red Deer Federal Riding, on Saturday, October 17th, in the Didsbury Opera House. Addresses will be delivered by Mr. Kercher and Hon. C. R. Mitchell, the chair being taken by W. A. Austin. Everybody is welcome, and ladies especially are given a cordial invitation.

Meetings in the interests of Thomas Kercher will also be held at Bergen on October 20th, Elkton on October 22nd, and Jutland October 23rd.

A second convention of the Conservative party held at Red Deer last week, resulted in the nomination of Joseph LaFrance of Red Deer, the choice being unanimous. Mr. LaFrance is a son-in-law of G. W. Smith, U.F.A. member for Red Deer in the provincial legislature.

Didsbury--Mind Your Scalp

A despatch from our neighboring town of Olds says curlers there held their semi-annual meeting at the Victoria hotel, Wednesday night. The forepart of the evening was given over to a banquet, given by the president and his supporters, who lost in the Christmas day competition in the president v.s. the vice-president competition. There was a large and jolly crowd of curlers present. The election of officers for 1925-26 was held.

Olds now holds the McDonald cup, and is keen for the season to open, when it can play for the Mitchell cup, now held by Didsbury. This is the last year for the Mitchell cup. Didsbury has 28 wins to 27 for Olds, so there will be keen rivalry in store for the curling fans this year.

this notice at least thirty-three resident electors of the municipality petition the council to submit such by-law to the vote of the resident electors of the municipality the Council will proceed to pass the same.

C.P.R. Requires Extra Trackage at Didsbury

Would Close Crossing North End of Town.

At a special meeting of the Town Council Tuesday evening, J. D. Fraine, Divisional Supt., and R. C. Harris, engineer, representing the C.P.R. interviewed the councillors relative to certain improvements and alterations which it was proposed to make on C.P.R. property at Didsbury. It transpired that applications had been received for permission to erect two coal sheds and an elevator at this point with the possibility of the erection of another elevator next year. In this connection extra trackage would be required, which in turn would involve the closing of the crossing at the north-end on Waterloo street. Mr. Fraine explained that it was the aim of the railway company to afford the farmer every facility possible, and in view of the growing importance of Didsbury as a grain centre it was proposed to make certain improvements here to cope with the extra business. As present regulations prohibited the building of an elevator less than two hundred yards from a crossing, he sought the consent of the town to the closing of the above mentioned crossing.

After considerable discussion, Mr. Fraine was asked whether the C.P.R. would be agreeable to open up another crossing further north, which he thought could be arranged.

Eventually, the council requested that the matter lay over for a few days for consideration and this was agreed to.

Who Will Represent Didsbury?

Two thousand farmers in the province are being notified by the department of Agriculture of the forthcoming International Hay and Grain Show at Chicago, from November 28 to December 5, at which Alberta farmers have always been prominent exhibitors. Farmers who intend to exhibit this year are asked to have their entries into the Provincial Department of Agriculture by November 3rd, as all entries must be in Chicago by November 9. Exhibits are to be shipped to the seed cleaning plant of the Department at Edmonton, from where the Department will pay freight or express to Chicago. The exhibits are to be in place in Chicago by November 23. The Department will also bear the expense of putting up the exhibits. The Department is offering again an honorarium of \$150 for each grand championship won by an Alberta farmer, and \$100 for each first prize.

THE ROOSTER IN A NEW ROLE.

(Contributed)

Fraser is busy these days threshing Allen's grain. He is in with a 75 turkey power tractor and a 75-inch self-containor separator and a willing crew of one hundred Holstein hens. The rooster reads the tally and crows cock-a-doodle-doo.

Impressed With the West

Editors of United States agricultural papers, representing 11,000,000 circulation, were deeply impressed with what they saw during their recent tour of the prairies. "We have no wheat land in Illinois the equal to this," said P. A. Potter, editor of the Orange-Judd Farmer, of Chicago. "We dare not go back and tell the whole truth of what we have seen in Western Canada or we would lose half of our farming population."

BAREE, SON OF KAZAN

by James Oliver Curwood

A LOVE EPIC OF THE FAR NORTH

Copyright, 1917, by Doubleday, Page & Co.

"BAREE, SON OF KAZAN," a Vitaphone Picture, With Wolf, the War Dog. Is an Adaptation of This Story

SYNOPSIS

Pierrot, the trapper, received word that McTaggart, the factor, would arrive at Pierrot's cabin the next day to demand the hand of his daughter, Nepeese. "He is a beast—a man-devil," Pierrot warned Nepeese. Baree, the wolf-dog, hunting near McTaggart's camp, was caught in one of the game snares laid by the factor. McTaggart, finding him lying trussed up like an Indian papoose, cried, "You little devil! I ought to beat your brains out—and I believe I will!"

CHAPTER XII.—Continued.

The stick fell. It fell again and again, and when McTaggart was done, Baree lay half stunned, his eyes partly closed by the blows, and his mouth bleeding.

"That's the way to take the devil out of a wild dog," snarled McTaggart. "I guess you won't try the biting game again, eh, youngster? A thousand devils—but you went almost to the bone of this hand!"

He began washing the wound again. Baree's teeth had sunk deep, and there was a troubled look in the factor's face. It was July—a bad month for bites. From his kit he got a small flask of whiskey and turned a bit of the raw liquor on the wound, cursing Baree as it burned into his flesh.

Baree's half-shut eyes were fixed on him steadily. He knew that at last he had met the deadliest of all his enemies. And yet he was not afraid. The club in Bush McTaggart's hand had not killed his spirit. It had killed his fear. It had roused in him a hatred such as he had never known—not even when he was fighting Ochoondew, the outlaw owl. The vengeful animosity of the wolf was burning in him now, along with the savage courage of the dog. He did not flinch when McTaggart approached him again. He made an effort to raise himself, that he might spring at this man-monster. In the effort, swaddled up as he was in the blanket, he rolled over in a helpless and ludicrous heap.

They began to journey before the sun was up, for if Baree's blood was almost dead within him, Bush Mc-

Taggart's was scorching his body with the heat of his anticipation. He made his last plans as he walked swiftly through the forest with Baree under his arm. He would send Pierrot at once for Father Grodn at the Mission seventy miles to the west. He would marry Nepeese—yes, marry her! That would tickle Pierrot. And he would be alone with Nepeese while Pierrot was gone for the missionary.

This thought flamed McTaggart's blood like strong whiskey. There was no thought in his hot and unreasoning brain of what Nepeese might say—of what she might think. He was not after the soul of her. His hand clenched, and he laughed harshly as there flashed on him for an instant the thought that Pierrot would not want to give her up. Pierrot! Bah! It would not be the first time he had killed a man—or the second.

McTaggart laughed again, and he walked the faster. There was no chance of his losing—no chance for Nepeese to get away from him. He—Bush McTaggart—was lord of this wilderness, master of its people, arbiter of their destinies. He was power—and the law.

"With an oath he snatched his revolver from its holster."

The sun was well up when Pierrot, standing in front of his cabin with Nepeese, pointed to a rise in the trail three or four hundred yards away, over which McTaggart had just appeared.

"He is coming."

With a face which had aged since last night he looked at Nepeese. Again he saw the dark glow in her eyes and the deepening red of her parted lips, and his heart was sick again with dread. Was it possible? She turned on him, her eyes shining, her voice trembling.

"Remember, Nootawe—you must send him to me for his answer," she cried quickly, and she darted into the cabin. With a cold, gray face Pierrot faced Bush McTaggart.

CHAPTER XIII.

From the window, her face screened by the folds of the curtain which she had made for it, the Willow saw what happened outside. She was not smiling now. She was breathing quickly, and her body was tense. Bush McTaggart paused not a dozen feet from the window and shook hands with Pierrot, her father. She heard McTaggart's coarse voice, his boisterous greeting, and then she saw him showing Pierrot what he carried under his arm. There came to her distinctly his explanation of how he had caught his captive in a rabbit-snare. He unwrapped the blanket. Nepeese gave a cry of amazement. In an instant she was out beside them. She

did not look at McTaggart's red face, blazing in its joy and exultation.

"It is Baree!" she cried.

She took the bundle from McTaggart and turned to Pierrot.

"Tell him that Baree belongs to me," she said.

On the floor of the cabin Nepeese dropped on her knees and finished unwrapping the blanket. She was not afraid of Baree. And then, as Baree rolled in a limp heap on the floor, she saw his half-closed eyes and the dry blood on his jaws, and the light left her face as swiftly as the sun is shadowed by a cloud.

"Baree," she cried softly. "Baree—Baree!"

She partly lifted him in her two hands. Baree's head sagged. His body was numb until he was powerless to move. His legs were without feeling. He could scarcely see. But he heard her voice! It was the same voice that had come to him that day he had felt the sting of the bullet, the voice that had pleaded with him under the rock!

The voice of the Willow thrilled Baree. It seemed to stir the sluggish blood in his veins, and he opened his eyes wider and saw again the wonderful stars that had glowed at him so softly the day of Wakayoo's death. One of the Willow's long braids fell over her shoulder, and he smelled again the sweet scent of her hair as her hand caressed him and her voice talked to him. Then she got up suddenly and left him, and he did not move while he waited for her. In a moment she was back with a basin of water and a cloth. Gently she washed the blood from his eyes and mouth. He scarcely breathed. But Nepeese saw the little quivers that shot through his body when her hand touched him, like electric shocks.

"He beat you with a club," she was saying, her dark eyes within a foot of Baree's. "He beat you! That man-beast!"

There came an interruption. The door opened, and the man-beast stood looking down on them, a grin on his red face. Instantly Baree showed that he was alive. He sprang back from under the Willow's hand with a sudden snarl and faced McTaggart. The hair of his spine stood up like a brush; his fangs gleamed menacingly, and his eyes burned like living coals.

"There is a devil in him," said McTaggart. "He is wild—born of the wolf. You must be careful or he will take off a hand, ka sakahet!" It was the first time he had called her that lover's name in Cree—sweetheart! Her heart pounded. She bent her head for a moment over her clenched hands, and McTaggart—looking down on what he thought her confusion—laid his hand caressingly on her hair. From the door Pierrot had heard the word, and now he saw the caress, and he raised a hand as if to shut out the sight of a sacrilege.

"Mon Dieu!" he breathed.

In the next instant he had given a sharp cry of wonder that mingled with a sudden yell of pain from McTaggart. Like a flash Baree had darted across the floor and fastened his teeth in the factor's leg. They had bitten deep before McTaggart freed himself with a powerful kick. With an oath he snatched his revolver from its holster. The Willow was ahead of him. With a little cry she darted to Baree and caught him in her

arms. As she looked up at McTaggart, her soft, bare throat was within a few inches of Baree's naked fangs. Her eyes blazed.

"You beat him!" she cried. "He hates you—hates you—"

"Let him go!" called Pierrot in an agony of fear.

"Mon Dieu! I say let him go, or he will tear the life from you!"

"He hates you—hates you—hates you—" the Willow was repeating over and over again into McTaggart's startled face. Then suddenly to her father, "No, he will not tear the life from me," she cried. "See! It is Baree. Did I not tell you that? It is Baree! Is it not proof that he defended me—"

"From me!" gasped McTaggart, his face darkening.

Pierrot advanced and laid a hand on McTaggart's arm. He was smiling.

(To be continued.)

WOMEN'S HANDICAPS

Headaches and Backaches Often Make Life Miserable

A woman's health handicaps her almost always. She has pains and disabilities which do not afflict men. Nature does not give her a fair chance. Her blood is more often thin and poor than a man's and she often neglects the first beginnings of ill-health. Many women who seemed destined to a life of frequent suffering have been freed entirely from their suffering through the wonderful blood-making qualities of Dr. Williams' Pink Pills. Many a woman tells all day with a pain in her back and side, a burning headache, and a sense of having no spine left.

What a pity women will not listen to their friends whom Dr. Williams' Pink Pills have saved from their misery. Whenever a woman suffers they will help her—in youth, middle-age and after-life. Mrs. John Mitchell, of Middleville, Ont., gives her experience for the benefit of other women sufferers. She says:—"Some years ago I was so badly run down I could hardly walk around the house. I tried to do a few chores but was able to do very little. My boys and husband had to do the rest. If I started upstairs I had to go very slow or I would fall, and I was just played out when I got at the top of the stairs. My head ached terribly, and my heart would beat violently. In this deplorable condition I began taking Dr. Williams' Pink Pills. When I had finished six boxes I felt much better. Then I got a further supply, and by the time I had taken these I could walk anywhere without being exhausted, the headaches had disappeared and I am now perfectly well. Any woman who is run down should not hesitate to begin Dr. Williams' Pink Pills at once, as I am sure from my own experience they will build her up."

You can get these Pills from any medicine dealer or by mail at 50 cts. a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Has No Use For Pins

Hawatha, Kas., boasts of one housewife who keeps all the buttons securely sewed on. She has been married 10 years and says she still has part of the first paper of pins she bought at the time of her marriage.

Sleep is the great nourisher of infants, and without peaceful sleep the child will not thrive. This cannot be got if the infant be troubled with worms. Miller's Worm Powders will destroy worms and drive them from the system, and afterwards the child's rest will be undisturbed. The powders cannot injure the most delicate baby, and there is nothing so effective for restoring the health of a worm-worm infant.

Clams Menace To Divers

Deep sea divers in Cuba are learning to fear the giant clams in the water. The monstrous bivalves lie half open on the bottom of the sea, and should a diver step into them, the shells snap shut, holding the diver fast.

Good-bye Asthma. Persons suffering from that extremely trying trouble known as asthma know what it is to long with all their hearts for escape as from a tyrant. Never do they know when an attack may come and they know that to struggle unaided is vain. With Dr. J. D. Kellogg's Asthma Remedy at hand, however, they can say good-bye to their enemy and enjoy life again. It helps at once.

Japs Killed In Rainstorm

Twenty persons were reported killed recently and many were injured in the most torrential rainstorm in Japan in fifty years. At Yokohama 50 houses were crushed by a landslide and serious damage also was reported in the Manto district.

Big Yields Of Wheat

Two thousand bushels of good grade wheat have been threshed on 85 acres at Briercrest, Saskatchewan, while north of the village a yield of 38 bushels to the acre has been threshed.

Minard's Liniment for Colds

Put Real Mustard in Your Kit

Right at the top of the list of camping necessities is a tin or two of real mustard.

Men who fish and men who shoot know what a spiciness and flavour mustard freshly mixed with cold water adds to the ham, bacon, fowl, venison and other good things they eat in camp.

Predicts No Summer In 1926

The years 1926-27 will be without summer and the world's grain supply will be menaced, declares Herbert Janvria Browne, meteorologist, of Washington. His theory is based on the lunar cycle.

"KING OF PAIN"

A Long Wearing Suit

J. R. Will, a farmer near Westernport, Md., is believed to have the longest wearing suit of clothes. He bought the suit 23 years ago. He wore it into the store where it was purchased a few days ago and the merchant gave him a new coat and vest for the old one.

What Pretty Girl Did for Sick Stomach

Miss E. Rich of Brooklyn, N. Y., says: "I don't know what the cause was, but every few days my stomach would feel all bloated up with gas, my appetite was poor and I felt sick to my stomach—to say nothing of headaches."

"I never thought of using Carter's Little Liver Pills until nothing seemed to help. After using Carter's I felt relieved at once—and now as soon as my stomach 'talks' back I answer with Carter's and have the last word." Recommended and for sale by all drug stores. 25c.

PAINS ACROSS THE BACK

Relieved by Lydia E. Pinkham's Vegetable Compound

Mitchell, Ontario.—"I have taken your medicine for a number of years. I do not take it steady all the time, but I am never without it. I always keep it in the house. I took it first for pains in the abdomen and bearing-down pains, headaches and pains across the back. I have my home to look after and many a day I could not get up at all. I saw the advertisement in the paper about Lydia E. Pinkham's Vegetable Compound, and Mrs. John Miller told me about it, too. Every time I took it, it makes me feel better and I always recommend it to my friends. I am willing to answer letters from women asking about this medicine and you may use this letter as a testimonial."—Mrs. F. J. WASSMANN, Mitchell, Ontario.

The merit of Lydia E. Pinkham's Vegetable Compound is told by women to each other. Many women know by experience what this medicine will do and they are anxious for others to know.

Such testimony should cause any woman suffering from the troubles so common to her sex to give this well-known medicine a fair trial.

Do you know that in a recent canvass among women users of the Vegetable Compound over 220,000 replies were received. To the question, "Have you received benefit by taking this medicine?" 98 per cent. replied "Yes."

This means that 98 out of every 100 women are in better health because they have given this medicine a fair trial.

Sour Stomach Risings Quickly Relieved

The wonderful comfort and relief you get from even twenty drops of Nerviline will surprise you. Take it in sweetened water; it's not unpleasant. Almost immediately you feel better. Nerviline brings up the gas caused by fermenting food, and at the same time relieves that distressed feeling in the stomach. When colic or cramps strike you at night, when nausea or upset stomach overcome you, then it is that you'll find Nerviline a sure relief. For general use in the family, for emergent ills, always keep Nerviline handy on the shelf. Get a 35c. bottle to-day.

The New Habit

It has come to be the habit with some persons that they think themselves hard up when they can't buy all the things they want but don't need.

The Oil for the Farmer.—A bottle of Dr. Thomas' Electric Oil in the farm house will save many a journey for the doctor. It is not only good for the children when taken with colds and croup, and for the mature who suffer from pains and aches, but there are directions for its use on sick cattle. There should always be a bottle of it in the house.

End of Boycott Seen

The end of the Chinese boycott against British shipping was seen when ships began arriving at Amoy with cargo and took aboard hundreds of laborers for the Singapore rubber plantations.

"DIAMOND DYE" ANY GARMENT, DRAPERY

Just Dip to Tint or Boil to Dye

Each 15-cent package contains directions so simple any woman can tint soft, delicate shades or dye rich, permanent colors in lingerie, silks, ribbons, skirts, waists, dresses, coats, stockings, sweaters, draperies, coverings, hangings—everything! Buy Diamond Dyes—no other kind—and tell your druggist whether the material you wish to color is wool or silk, or whether it is linen, cotton or mixed goods.

Wheat Pool Grows

105,000 Members in the Three Western Provinces

Alberta's wheat pool has registered material growth since the first of August, the increase in membership in this period being 676, bringing the total membership to 32,150, an increase of 2,014 in the year. The Canadian wheat pool, comprised of farmers in the three prairie provinces, now has more than 105,000 members, an increase of 13,100 in the last six weeks.

The Poor Man's Friend.—Put up in small bottles that are easily portable and sold for a very small sum, Dr. Thomas' Electric Oil possesses power in concentrated form. Its cheapness and the varied uses to which it can be put make it the poor man's friend. No dealer's stock is complete without it.

Growth Of Fox Farming

Over Ten Million Dollars Invested in Industry in Canada

At the end of 1924 there were 1,465 fox farms in Canada and the value of the property was \$10,813,833, according to a report issued by the bureau of statistics. The relative position of each province with respect to the total value of fox farms was as follows: Prince Edward Island, 37 per cent.; Ontario, 16 per cent.; Quebec, 12 per cent.; New Brunswick, 9 per cent.; Manitoba, 8 per cent.; Alberta, 6 per cent.; Nova Scotia, 6 per cent.; British Columbia, 3 per cent.; Saskatchewan, 2 per cent.; and the Yukon Territory, 1 per cent.

The ease with which corns and warts can be removed by Holloway's Corn Remover is its strongest recommendation. It seldom fails.

The two stood on the darkened porch after the dance. She waited. "Love is blind," he quoted rapturously. "Well, can't you tell where I am by feeling?" she asked peevishly.

Shrunk in the Wash

The teacher was giving a nature lesson on sheep. She explained that before they are sheared they are washed, brushed and combed. Then she showed the children pictures of a sheep, asking if any child could explain to her why the lamb's tail was so much longer than the sheep's? There was silence, then—"The sheep's tail shrunk in the wash," said Joan, aged five.

EVANGELICAL NOTES.

Church Services
Sunday
10.30 a.m.—Morning worship.
11.30 a.m.—Bible School.
7.30 p.m.—Evening Worship.
8.30 p.m.—Senior League of Christian Endeavour
Thursday
7.15 p.m.—Junior League of Christian Endeavour. Study of Catechism, etc.
8.00 p.m.—Praise and Prayer Service.
H. E. Roppel, pastor

Presiding Elder, Rev. L. K. Wagner, Regina, Saskatchewan, will be here over this week end to conduct Quarterly Conference and Communion Services on Didsbury circuit to be held as follows:
Thursday 8.00 p.m. Pre-communion (preparatory) service.
Thursday 9.00 p.m. quarterly Conference business meeting.
Sunday 10.30 a.m. Communion service at Sunnyslope.
Sunday 2.00 p.m. Communion service at Westcott.
Sunday 7.30 p.m. Communion service at Didsbury.
Special invitation extended to all.

The Sr. League will cancel their meeting this Sunday evening in order to give the entire evening to the communion service.

Rev. C. J. Pike, Hubble, Kentucky, the newly wedded son-in-law of Mr. and Mrs. W. A. Miller, Didsbury, will preach next Sunday morning in the Ev. church, while on account of the pastor's absence, Mr. F. Honeysett will have charge of the preliminaries of this meeting.

Miss Olson, who is leaving Didsbury in the near future to take up a course of Bible Study at Three Hills, in the Bible School there, gave a very impressive testimony and farewell talk to the young people in the league meeting last Sunday evening. The members and friends of the league all wish her joy and success in this noble undertaking for a Bible education. In her quiet but faithful and unassuming manner of daily life, Miss Olson has wielded a somewhat silent but mighty influence for good to her credit during her attendance at the Evangelical church in the past and she will be greatly missed in the future.

RUGBY W.I. MEETING

The Rugby W.I. met this afternoon the 8th inst., at the home of Mrs. Vipond. There was a small attendance owing to the bad condition of the roads.

Mrs. Hosegood read an interesting paper on the forthcoming legislation bill. It was decided to hold a bazaar with a program on November 27th, of which Mrs. W. I. Brown is convenor. The flour sack article sale which was to have been held today was postponed until the next meeting. A delicious lunch was served by the hostess and the meeting closed with "God Save the King."

W. A. Austin has moved this week into the house next his office, vacated by J. A. Ruby, who resides now next to Dr. Clark.

Quality

The most urgent requirement in Canada's Agricultural Products

CANADA produces every year large quantities of wheat, oats, barley, butter, cheese, bacon, beef, eggs, apples, potatoes, grass seed and clover seed that she cannot consume. Her natural outlet for these products is, of course, Great Britain—the one great consuming country of the world with an open market.

Unfortunately, nearly every other country with any surplus of food products seems to want to send its surplus to this same market.

The keenness of the competition on this, our only market, and the energy and resourcefulness of our competitors began to impress themselves upon the Department of Agriculture some time ago, but it is only within very recent years that the real and only way to grapple with this problem has been discovered, or at least put into effect. This Department now believes, as do also most of the farmers of this country, that the "grading" of our agricultural products is the policy and practice that is seeing us through the struggle and will assure us of our rightful place on the British market.

"Grading" means the classifying of products, whether they be hogs, butter, cheese, eggs or anything else, into what might be called in a general way "BEST", "GOOD", "FAIR" and "POOR" classes.

These exact words are not used in describing the grades, but that is what is meant. The purpose served in grading is threefold—

(1) **Educational.** When the producer sees the relative quality of his product he is spurred on to maintain that quality if it is the "best" or to improve the quality where necessary.

(2) **Fair Play.** When products are not graded the inferior article for various reasons often brings as much as the superior article, and the credit and advantage of putting the superior product on the market is lost to the one who really deserves it.

(3) **Facilitating Trade.** The dealer learns to have confidence in the article he is buying and buys more freely, because it is guaranteed by grading, and gradually everybody gets to know what the "best" article really looks like or tastes like. In short, grading brings about standardization and ensures to the producer the best price.

Canada now grades her cereals, grass seeds, hay, potatoes, apples, eggs, butter, cheese, wool and bacon hogs. The results have been in every case beneficial and in some cases quite markedly so, even though the grading system has been in effect in some cases for only two or three years, thus:—

Cheese—Grading began April 1st, 1923. Canadian cheese the year before had fallen into such disfavour on the British market that New Zealand cheese was quite commonly preferred. Today Canadian cheese commands cents per pound higher than New Zealand.

Butter—Grading began same time as for cheese. The reputation of our butter was then indeed at low ebb. Canadian butter today, while not the best on the market, is rapidly improving in quality and gaining in reputation.

Hogs—Over two years ago the Department of Agriculture began to grade live hogs at the packing houses and stock yards. The 10% premium paid by the packers for "select" bacon hogs as against "thick smooths" as classed by departmental graders has done wonders to improve the quality of our hogs and develop the bacon industry.

Best Canadian bacon, which ordinarily was quoted two years ago from 10 to

18 shillings a long hundredweight below Danish, has gradually grown in the estimation of the British wholesale buyer until it is now quoted at only from 1 or less to at most 5 or 6 shillings per long hundredweight below the best Danish.

This improvement in price is, of course, due to quality and has come about very gradually, the spread narrowing down by a shilling or two a month until now it is not at all a rare occurrence to see best Canadian selling on a par with the Danish article.

Eggs—Canada was the first country to grade and standardize eggs. These grades and standards apply not only to export, interprovincial and import shipments, but also to domestic trading.

The basis is interior quality, cleanliness and weight.

Standardizing Canadian eggs has established confidence between producer and consumer and between exporter and British importer, and has resulted in a greatly-increased demand for the Canadian egg both at home and abroad.

Other products might be mentioned where grading has worked to the great advantage of the producer and to the advancement of Canadian agriculture.

Already Great Britain recognizes our store cattle, wheat, cheese, eggs, apples and oats as the best she can buy.

It is for us to so improve our other products, particularly our butter and bacon, as to bring them also into this list of "the best on the British market" and consequently the highest priced.

Grading enabled us to do this for cheese, wheat, eggs and apples.

Grading is helping us to do it for butter and bacon.

Quality Counts

Quality is thus the first objective for the Canadian export trade, and, then steady, regular supply. It is along these lines the Department of Agriculture is working by educational methods, and the result of this policy is seen in the growing volume of Canada's agricultural exports. Look at these figures:—

Canada's Principal Exports of Farm Products

	1920-21	1924-25
Wheat (bus.)	129,218,157	191,764,537
Flour (bbls.)	6,617,032	11,029,227
Bacon and Hams (cwt.)	982,338	1,208,721

B. C. Fruits For The Prairies

Growers in Okanagan Valley Look to Prairie Provinces For Their Products

(By J. Alex Alkin)

It is an interesting fact that 25 years ago, before the big development of Western Canada had started, this Okanagan Valley was regarded as specially favorable for cattle raising. Even now by way of recalling that day and lordly vocation one may see a rider well attired in the garb of the cow-puncher well mounted on the streets of Vernon. However, one never hears in this valley what is so often said on the prairies that it was a mistake to survey the land for settlers. The fertility and adaptability of the location for fruit growing has been well proven. There are years like this one when the amount of moisture is below the average, but in such a season the irrigation arrangements perform great things for all favored with the water supply. This year the reservoirs are getting low but a share of the crop of small fruit is past the danger period and there is still time for the apple crop to grow to average size. The growers are wary of a crop of small apples which means more cost for picking and packing and a smaller return.

Men who have been over the field and who are possessed of reliable information, estimate the 1924 apple crop at 75 per cent. of last year's. A 100 per cent. crop of McIntosh Reds is promised, but the other varieties do not indicate so large a yield. But there is still much time for growth and with needed rain the crop may turn out better than the estimates.

The Okanagan Valley producers regard the prairies as their best market, nearest home, and is the one to which they pay most careful attention. Application to business and experience has taught them how to pack and ship fruit so that it will reach the consumer in prime condition. It is the fixed purpose and plan of the producers this year to reach the consumer and get attention for the B.C. fruit when it is to be put on the market by the medium of the daily and weekly newspapers. There will also be local exhibits of the fruit in season to better acquaint buyers with B.C. products. Most of this advertising will be done by the Associated Growers' of B.C., Limited, and consequently their brand on the box or crate will be a guarantee behind the advertisement, which is always worth something to the consumer. Basil Stewart, the general manager, is a keen Scot, a man of integrity and of few words. E. C. Chambers, of Penticton is president of the Associated Growers, and an enterprising grower in the south of the valley.

The fruit growers are becoming educated up to the idea of co-operative marketing, for they have learned by experience that only by co-operation among growers and through the agency of an organization covering the prairies is it possible to serve the territory and supply the demand as it arises. Mixed cars of fruit are regularly shipped out to points all over the prairie provinces, an advantage which the U.S. shippers will not concede.

Most of the growers in the Okanagan Valley are of British stock, both English and Scotch, and anyone who has tried to line them up to any scheme or system soon learns it is no light task. There must be fair dealing as well as executive capacity, else the native independence and love of freedom will assert itself. There are a few Orientals in the valley, but they give attention almost entirely to vegetables and small fruits in which they excel. They seek to purchase land on occasion, but are not encouraged in this direction, even where the deal might be profitable to the landowner.

The Associated Growers of B.C., Limited, comprises about 70 per cent. of the growers and 80 per cent. of the products of the valley. The association is operated on the pool plan and was at a disadvantage last season in not being able to make payments until well along in the crop year. The independents on the other hand usually buy outright what they may handle for growers, paying for it either at time of purchase or on short date.

If the crop should prove to be as good as present prospects and the market as good as the present outlook the Associated Growers should be able to hold out satisfactory all their patrons. The independents include some enterprising growers and men of business capacity, both in the Okanagan and

Kootenay, but it will be admitted they are assisted by the big umbrella with its enterprise in advertising and opening the markets.

The prospects for the Canadian market are favorable, and if wheat goes to the \$1.50 mark and holds for the crop movement, as is predicted by some buyers, that will overcome the fact and argument based upon the price level of farm products as compared with other commodities. It is quite possible also that there will be a limited market for Canadian apples in the United States.

The competition to which B.C. growers are exposed by U.S. growers is decidedly keen and can only be met and handled if Canadian consumers, especially those on the prairies, give the preference to the B.C. fruit.

Seeing that these B.C. people buy a lot of Canadian flour and cereals, meat and dairy products from the prairies, in addition to products of other Canadian industries, it is a fair exchange to buy excellent fruit in return. They are our own countrymen, helping to carry the national burdens and responsibilities and the co-operative hand in the way of fair exchange is highly commendable.

Killed By Blood Poison

Used an old razor for paring his corns. Follish, because 25c buys a bottle of Putnam's Painless Corn Extractor which for fifty years has been removing corns and warts without pain. No failure if you use "Putnam's." Refuse a substitute, 25c everywhere.

Chose Valuable Souvenirs

Gold Spoons Missing From Elysee Palace After Reception

There was considerable excitement in the kitchen at the Elysee Palace following President Doumergue's reception of 500 American advertising delegates and their families recently.

On the completion of the inventory of the various utensils used at the buffet during the brilliant afternoon's entertainment, a butler discovered that forty-seven gold teaspoons were missing. These spoons are among the treasures of the presidential palace and were brought out along with the rest of France's best gold plate to do honor to the delegates.

It is considered possible that some of the delegates wished souvenirs of their visit to the president's palace and chose these valuable pieces of the palace tea service. A search of the whole palace and the domestics failed to supply any other explanation, particularly as the servants of the palace are old devoted retainers, carefully chosen and of unimpeachable honesty.

Ready For Harvesting

A good supply of Clarke's Corned Beef provides handy and economical meals during harvest time. Scraps make delicious mince or pies—no bone—no waste.

"Let the Clark Kitchens help you."

The "Bawbee" Did It

It now appears that it was the charging of sixpence for a sight of the Stone of Destiny that prompted the Scottish members of the British House of Commons to demand the return to Scotland of that interesting relic. If there are any sixpences to be made that way, Scotland could find use for them.—Woodstock Sentinel-Review.

In England and Wales one in every thirty-one of the population was receiving poor law relief at the beginning of this year, according to an official report just issued.

SUNDAY SCHOOL LESSON

AUGUST 24

JESUS TALKS WITH NICODEMUS

Golden Text: For God so loved the world, that He gave His only begotten Son, that whosoever believeth in him should not perish but have eternal life. John 3:16.

Lesson: John 3:1-17.

Devotional Reading: Isaiah 11:1-9.

The Text Explained and Illumined

The Visit of Nicodemus and His Address to Jesus, verse 1, 2. "Now there was a man of the Pharisees, named Nicodemus, a ruler of the Jews," thus John introduces the man whose conversation with Jesus has become immortal. He was a Jew with a Greek name. He was a Pharisee, a member of that sect which as a rule appears in the Gospels as bigoted, hypocritical, and base. The great exceptions are Gamaliel and Paul. "It is a mistake to suppose that they who belong to a mischievous party in a church are themselves mischievous" (Dods). He was a ruler of the Jews, a member of the Sanhedrin who appears later as a defender of Jesus (Jn. 7:45-52). Dean Hodges says that Nicodemus combined in his person the dignities of an English bishop, an English lord and an English head-of-college, for he was a man of eminence, a leader in the world ecclesiastical, political and intellectual.

Admiral Madden

New Admiral of the British Fleet Well Qualified for the Post

Admiral Sir Charles E. Madden, who has been appointed Admiral of the Fleet, the chief position in the British navy, is remembered on this side of the Atlantic from 1919 to 1922. From his youth Sir Charles was brought up on the best traditions of the navy, so that when the time came for him to choose a career, it was only natural that he should elect the navy. Prior to the great war, he was Rear-Admiral in command of the third and second cruiser squadrons in the home fleet. After the outbreak of the war, he was appointed chief of staff to the Admiral Commander-in-Chief at that time Admiral Sir John Jellicoe, who happens also to be his brother-in-law. At the battle of Jutland, Admiral Madden served with distinction, and was mentioned in dispatches. In 1917 he became second in command of the grand fleet. In character he is earnest and reserved, firm and ready for emergencies, and he bears the reputation of being a staunch friend.

Miller's Worm Powders, being in demand everywhere, can be got at any chemist's or drug shop, at very small cost. They are a reliable remedy for worm troubles and can be fully relied upon to expel worms from the system and abate the sufferings that worms cause. There are many mothers that rejoice that they found available so effective a remedy for the relief of their children.

Radium As Medicine Brings Good Results

Trial at New York Hospital Justifies Further Research

First use of radium as a medicine, in the treatment of inoperable ailments of the nose and throat, has occurred at the otolaryngical clinics of Beth Israel Hospital, New York, according to a dispatch from that city. The treatment covered cases of tonsil disease and of goiter, as well as of cancer, with results sufficient to encourage further research in this direction.

The dispatch continues: "The patients were entirely free from pain after the third treatment. Then 20 patients were treated, the action of the radium continuing in all of them until the tonsils were completely atrophied.

"In goiter cases results are gratifying, but not decisive as yet. Several of the goiters show decrease in size."

A Remedy for Earache.—To have the earache is to endure torture. The ear is a delicate organ and few care to deal with it, considering it work for a doctor. Dr. Thomas' Electric Oil offers a simple remedy. A few drops upon a piece of lint or medicated cotton and placed in the ear will do much in relieving pain.

Joseph Conrad Dead

Joseph Conrad, 67, one of the foremost English novelists, died recently at Bishopbourne, Eng. His early life as a sailor and later as a sea captain formed the background for his novels of the south seas, the best known of which were, "The Nigger of the Narcissus," "Lord Jim," "Victory" and "The Rover."

Wonders At Empire Exhibition

Many Things Have Been Constructed On Large Scale

According to western standards, the Wembley Exhibition occupies a comparatively small space, but a great deal is crowded into it. There are fifteen miles of roads and nearly six miles of railway track, while more than one million electric lights have been fitted up. Most things at Wembley are on a large scale. A million-gallon water tank has been built; a power station capable of supplying light to a township of 100,000 inhabitants is running. Two gigantic gas meters, big enough to supply a district with a population of a quarter of a million with gas, both for lighting and cooking, are installed. The bigger of the two, which has a cubic capacity of 50,000 ft. an hour, is over 13 ft. deep and 11 ft. 6 in. in height. The pipes connected to it are 16 in. in diameter. The smallest watch in the world and a wonderful jewel which changes color like a chameleon are among the treasures to be seen at the exhibition. The watch is smaller than a sixpence and is worth \$5,000. Its thickness is less than the thickness of a 50-cent piece. It can be carried as a charm on the watch-chain, and keeps perfect time. About 150 cases of fruit of all kinds are being dispatched from South Africa to Wembley each week.

Wedding.

The marriage took place on Thursday, October 8th, of Mary de St. Croix Orde to Harold Sefton Mann, the ceremony being solemnized at the home of the bride's parents, west of Didsbury, the Rev. M. G. Newton, a friend of the groom from Duffield, officiating. The bridal couple left on the five o'clock train for Calgary and other points, and on their return will make their home at Sylvan Lake where the bridegroom has a position in the local branch of the Imperial Bank.

Presentation.

A very pleasant little ceremony took place at the home of Mr. Geo. Smith yesterday (Wednesday) afternoon, when Mrs. Ryan was the recipient of a handsome present of china from the O.E.S., previous to her leaving Didsbury to join her husband at Gadsby. The presentation was made in the presence of a large number, by Mrs. Leadbetter, who whilst expressing regret at Mrs. Ryan's departure, extended the heartiest wishes of all present for her future happiness and prosperity.

PRECIPITATION FOR SEPTEMBER

Five inches of precipitation is the total for the month of September, according to the monthly report issued by the meteorological bureau at Calgary. This is the highest amount of rainfall for this month for the past ten years. In 1915 the precipitation registered two inches; in 1916, one inch and three-quarters for the same month. But this year doubles the record with over five inches, and such a snowstorm the like of which old timers in the country declare they have not seen for forty-two years.

Provincial Convention

W.C.T.U. Have Interesting Session.

The provincial W.C.T.U. thirteenth annual convention, which was held in Knox United church, Calgary, October 7th, 8th and 9th, was a very successful event. Fifty-four delegates answered the roll, including the following from Didsbury—Mrs. H. Reiber and Miss Cressman, Mrs. Rennie (Westcott), Mrs. C. Marden (Jutland).

After roll-call, reports were received from executive committees, district presidents, and departments of work. Some very interesting reports were given showing that great progress is being made, especially in the essay contest work.

Afternoon session closed with the president's (Mrs. McKinney) annual address, which was very inspiring as usual.

At six o'clock a banquet was given to the visitors and some of the prominent citizens. In the evening a gold medal contest was held, the medal being won by Miss Elva Gier, after which lantern slides "The mystery of the brain," were shown. Presentation of banners followed.

Thursday morning a discussion took place on ways and means of interesting women in temperance work.

The W.C.T.U. work is carried on in 52 countries.

The world's W.C.T.U. objectives are—world prohibition, world peace, world purity.

Public Meeting

A Public Meeting in the interests of Thomas McKercher, Liberal Candidate for the Red Deer Federal Riding, will be held on

SATURDAY, OCT. 17th

At the hour of Eight p.m. in the

Didsbury Opera House.

THOMAS MCKERCHER

and

HON. C. R. MITCHELL

Will Address the Meeting.

Chair will be taken by W. A. AUSTIN.

EVERYBODY WELCOME. "God Save the King"

After the election of officers, the convention closed with the singing "Praise God from whom all blessings flow," and prayer by the president.

Lest Ye Forget.

"In Flanders fields the poppies blow,
Between the crosses, row on row."

Thus it is pictured in the memory of every returned soldier.

The distribution of Vetreft poppies as the "Flower of Remembrance" this year on Armistice Day will assume proportions far in excess of any year since the institution of the custom. Orders received by the G.W.V.A. are now in excess of the total distribution last year by several hundred thousand. Vetreft poppies bear a double significance to the wearer. Besides serving as the "Flower of Remembrance" every poppy replica is the handiwork of a veteran whose war disability precludes him from engaging in normal activities.

A party consisting of twelve Chinese students from Hong Kong and Peking arrived in Montreal recently to take up temporary positions in departments and shops of the Canadian Pacific Railway, in order to familiarize themselves with the railway situation in Canada. They will remain a few months and then return to China to make practical use of the information they acquire.

Among the notable personages who arrived in Canada during the first week in September from Europe were Princess Patricia, Sir Thomas and Lady Grattan, and the Earl and Countess of Mar and Kellie, all of whom were on the Canadian Pacific steamship Mountroyal; James Oliver Curwood on the Empress of Scotland and Baroness Orczy on the Montclair, of the same line.

Calgary, Alberta. — The No. 4 Royalite well (Imperial), continues to amaze geologists. Its naptha production increased July to 546,135 gallons, 73 degrees Beaume, an increase of 25 barrels daily over the June production. The production continues to increase and the flow of gas at 20,000,000 cubic feet a day is being maintained. This flow will shortly be harnessed to supply Calgary.

Before sending your printing order elsewhere see the Pioneer. It will pay you.

Preparations are under way for the holding in Montreal in June next year of the annual convention of the American Association of Railroad Superintendents. J. K. Savage, General Superintendent, Canadian Pacific, was elected chairman of the arrangements committee, and plans were made for the organization of a complete committee to go ahead with the business of making the convention a success.

A despatch from London states that in the past three weeks more than 20,000 boxes of Quebec-made cheese have arrived and been sold in London at good prices, the quality, it is said, being of the best. It is pointed out that if Quebec products are to obtain the position they deserve here it is necessary to keep continuous supplies coming, in order to make them known to the general public, rather than to make either isolated or occasional speculative shipments. Along this line, some 7,000 boxes of Quebec-made cheese went forward from here to the London market during the past week.

And most grocers recommend it.

The West Leads the Way

Despite the fact that from press and platform in Eastern Canada sharp criticism, even abuse and misrepresentation, of Western men, organizations and policies continues to be voiced, and the West generally held up before the public gaze as utterly selfish, concerned solely with its own interests and regardless of the welfare of other portions of the Dominion and quite indifferent to the fate of Confederation itself, there is nevertheless discernible a clearer, more sensible view of the West by Eastern men and institutions who take the trouble to study the actual situation and get below the clouds of propaganda.

With such men there is a growing conviction that here in the West the people are seriously and successfully grappling with one of the greatest of all great Canadian problems today, namely, economy in public administration and consequent reduction in taxation. At the same time, while insistent upon their rights and urging the necessity for reforms and the adoption of certain policies, the people of the West are not whining but are hard at work seeking their own salvation and the permanent welfare and prosperity of Canada as a whole.

An illustration of this very welcome development is found in the concrete facts laid before the Investment Bankers' Association of Canada at their annual meeting in Montreal recently. The Association was informed that in the matter of municipal borrowings and expenditures Western Canada is setting an example which the East would do well to follow. In each year since 1920, Western municipal borrowings have declined, with the result that in the three years of 1922, 1923 and 1924 the total amount borrowed was ten million dollars less than in the one year of 1913.

On the other hand, Eastern municipalities borrowed sixteen million dollars more in 1924 than they did in 1913, while the aggregate of their borrowings in the last three years was \$209,000,000, or nearly three and one-half times the figure for 1913, compared with a decrease of ten million dollars in the West.

But this is not all. Returns for 1923 show that while six out of seven of the large cities in the four Western provinces reduced their per capita expenditures, seven out of seven of the large cities in Ontario and Quebec increased their per capita expenditures.

Turning from the question of municipal to Provincial finance, this convention was informed that in 1924 three of the four Western Provinces had balanced budgets and showed surpluses, while in the East only Quebec showed a surplus, and Ontario's deficit was over eight million dollars.

Commenting on these figures and developments, the report to the Investment Bankers' Association in regard to the municipalities says: "The facts are significant. Such results in Western Canada, whether born of prudence or necessity, are setting an example which might well be followed in larger measure by many of our older and larger urban communities in Eastern Canada. And, dealing with Provincial finances, the report says: "That three of the four Western Provinces have succeeded in effecting this result (balanced budgets and surpluses) is evidence of a sound fiscal policy, which if continued and followed up by businesslike methods of debt amortization, must inevitably be recognized in a tangible way by underwriters and large investing institutions both at home and abroad."

Throughout the length and breadth of Canada there appears to be agreement that economy in public administration and reduction in taxation are imperative and essential to the welfare of the Dominion, and that until this is brought about, and definite action taken towards the liquidation of our heavy war debt, Canada cannot prosper as it should. If this is true, and no one is bold enough to question it, then the evidence shows that, despite all Eastern criticisms, it is the West that is making a real contribution to the stability of Confederation, and doing so by self-denial and hard work, while Eastern Provinces and municipalities go on piling up still larger debts, thereby further increasing taxation.

Under Providence, the West has this year added enormously to the wealth of Canada. As the result of the labors of our people the wheels of industry are being speeded up all over the Dominion, business is steadily improving, and, with railways busy, their net earnings are showing substantial increases. Present indications are that the Canadian National will this year make the best showing in its history.

If the propagandists of the East, instead of sneering at the West as self-centred, narrow and selfish, and accusing Western people with being secessionists or annexationists, would impartially study the facts, and then co-operate with the West for the good of all, Canada would soon be on the high road of prosperity.

Men are usually embarrassed when they propose—either financially or otherwise. Don't be slovenly in your dress. This applies to women only, as men are not supposed to wear dresses.

Children Cry for

**Fletcher's
CASTORIA**

MOTHERS:—Fletcher's Castoria is a pleasant, harmless Substitute for Castor Oil, Paregoric, Teething Drops and Soothing Syrups, especially prepared for Infants in arms and Children all ages.

To avoid imitations, always look for the signature of *Dr. H. H. Fletcher*. Proven directions on each package. Physicians everywhere recommend it.

SUNDAY SCHOOL LESSON

OCTOBER 18

PAUL WRITES TO THE CORINTHIANS

Golden Text: Now abideth faith, hope, love, these three; and the greatest of these is love. I. Corinthians 13:13.

Lesson: I. Corinthians 12:1 to 13:13. Devotional Reading: I. John 4:7-13.

The Text Explained and Illumined

The Essentialness of Love, verses 1-3.—Emotional gifts are valueless without love. Eloquence uninspired by love means no more than so much noise, declares Paul in his words, "If I speak with the tongues of men and of angels, but have not love, I am become sounding brass, or a clanging cymbal." Paul's love for his readers leads him to speak of the possibility of his being without love rather than to accuse them of this lack—thus he illustrates the lesson he wishes to teach. The Greek word translated "tongues" means primarily "ecstatic utterances." "The gift of tongues was an ecstasy of feeling by which men were carried away and broke into rapturous, inarticulate utterances. A modern musician has written songs without words: this is a very apt description of the peculiar kind of spiritual emotion called in the New Testament 'speaking of tongues.' Probably the nearest approach to it most Christians make is when they are carried away by the feeling of a revival meeting. In Mr. Moody's revival meetings the church was full of men who floated, so to speak, on a wave of emotion; an unutterable joy in the redeeming love of God seemed to sustain their life; it was full, as they would have said in the early days, of people speaking with tongues" (James Denney).

For years Mother Graves' Worm Exterminator has ranked as a reliable worm preparation and it always maintains its reputation.

The only difference between meddling and investigating is that we always investigate and the other fellow meddles.

A LITTLE BOOKLET MOTHERS SHOULD HAVE

It Tells What a Mother Ought to Know for Baby's Sake

Above all things every mother wishes that her child, or children, whatever their age, may be bright, healthy, good-natured, rosy boys and girls; clear-eyed, clear-skinned babies; good sleepers, bright wakers. Every mother's wish for her little folks is that they may be well.

It is natural for little folks to be well. No wise mother thinks that her child at any age is in a natural state unless it is well and happy. No mother can expect, though, that the child will escape all the ills to which babyhood and childhood are subject, but she can do much to make baby's battles for health easily won.

A valuable little booklet entitled "Care of the Baby in Health and Sickness" has been prepared, and as it is something every mother should have, a copy will be sent free to any mother on request who will mention this paper by The Dr. Williams' Medicine Co., Brockville, Ont.

Soviets and Poles Friendly

Russia Anxious to Have Goodwill of Nearest Large Neighbor

In view of the prospect that Germany will negotiate a security pact with the allies and enter the League of Nations, Soviet Russia's relations with Poland, which in the past have been marked by lack of cordiality, and even acrimony, have lately assumed a strikingly friendly character.

This has been forcibly emphasized by the warmth of the reception accorded M. Tchitcherin, Russian foreign minister, at Warsaw. The Soviet press interprets his Warsaw reception as the beginning of a definite approachment between Poland and Russia.

Russian official circles profess to see in the proposed security pact a move on the part of the Western European powers to create a united front of all Europe against the Soviet union, and they appear anxious to have at least the friendship and goodwill of Russia's nearest large neighbor, Poland, to offset the blow.

Will Show Butter At London

Mr. L. A. Gibson, Manitoba dairy commissioner, announces that ten boxes of Manitoba butter have been shipped to England recently to compete in the 47th annual dairy show of the British Dairy Farmers' Association at the Royal Agricultural Hall, Islington, London.

Scientists Working In Transvaal

Have Located Ancient Road 200 Miles In Length

Large lime deposits in Northern Transvaal have been found to be fossil bearing, and scientists are preparing to make an extensive search. Moreover, in the Transvaal, ancient mine workings have been located. The latter are believed to have been worked by pigmies who used copper chisels. A further interesting discovery has been made, likewise in the Transvaal, of an ancient road, 200 miles in length, running through the Woodbush country.

"So you and your wife eloped?" "Yes, but I have since had reason to believe that her father bought the ladder I used and placed it just where I couldn't help seeing it."

Herr Saxe, who invented the Saxophone, was fortunate enough to pass away before the instrument came into general use.

A Strange Discovery

Parts of Whale Backbone Found In Okanagan Lake

Portions of the skeleton of a dozen of Okanagan Lake, in the southern interior of British Columbia, in which residents of the districts have at various times asserted they have seen creatures usually classified as sea serpents, were delivered to the provincial government museum at Victoria, B.C. After a conference of biological experts, the remains were pronounced to be parts of the backbone of a whale.

Keep your horses working with "SPOHN'S." Standard remedy for 32 years for Distemper, Strangles, Influenza, Coughs and Colds. Give to sick and those exposed. Give "SPOHN'S" for Dog Distemper. Sold by your druggist. If not order from us. Two sizes, large and small. Write for free booklet on disease. SPOHN MEDICAL CO. Dept 23 GOSHEN, IND.

FREE GOVERNMENT INFORMATION

Increase Poultry Profits by Marketing Co-operatively

THE Western Wheat Producers, the Ontario honey men and others, have made co-operative selling a marked success. They have stabilized prices and increased their profits by standardized grading and shipping methods; and applying efficient salesmanship and real merchandising to the disposal of their crops. By these methods the poultry producers, too, can secure these benefits. The outstanding proof of this is Prince Edward Island, where, for the last thirteen years, expert and efficient salesmanship applied to co-operative marketing, has saved thousands of dollars annually for the poultry farmers and permanently stabilized their markets.

While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

GERMANY WANTS TO INSURE PEACE FOR THE FUTURE

Locarno, Switzerland.—Not only peace now, but peace for all time is Germany's desire. The German chancellor, Dr. Luther, so informed M. Briand, the French foreign minister, in a private consultation of the two statesmen, which stands out conspicuously as the biggest single event since the opening of the security conference.

The two leaders stole quietly away from Locarno and, meeting at a secluded spot on the shore of Lake Maggiore, had a frank talk on European problems as a whole, and especially how best to consolidate the peace of Europe.

This meeting of conciliation, marked by an expression of the determination of both statesmen to do everything humanly possible to banish the Franco-German war spectre, has injected a new ray of optimism into the political atmosphere, despite the fact that it did not result in the fashioning of a formula whereby France can guarantee, in a special way, the territorial integrity of Poland and Czechoslovakia, her allies.

That problem will require a consultation of the cabinets at Paris and Berlin, for France and Germany will find it difficult yielding from their original positions without the support of their home governments and home parliaments.

Urges Commercial Air Development

Air Force Aiding Canadian Industry Says Commander Scott

Ottawa.—The Royal Canadian Air Forces and its development along the lines of civil aviation, was the theme of an address before the Ottawa branch of the Engineering Institute of Canada by Commander Capt. J. Stanley Scott, M.C., A.F.C., D.C. He said it was the particular function of the force to develop the air power of Canada by the spread of commercial aviation, and the cultivation of a sound ultimate air power.

Among the industries that have been considerably helped by the Air Force in Canada is the salmon fishing industry on the Pacific coast, he said. The airman patrol for the suppression of illegal fishing and see that no improper or unlawful practices are employed. The officers flying in this service are all sworn in as fishery inspectors. Wireless communication is maintained from the aircraft to the stations.

Prince Writes A Play

Stockholm.—Prince William, King Gustav's younger son, known as Sweden's royal poet-playwright, has completed a new play, which has been accepted for production by the Royal Dramatic Theatre. It is titled "On Board," and deals with life at sea, of which the prince has had considerable experience, having been trained for the navy.

Capt. Drake Missing

Seattle, Wn.—Captain Thomas Drake, who left Seattle alone in May for England in a small schooner, has not been heard from since he sailed from San Diego, August 15, according to J. W. Lough, of Seattle, an old friend of Drake's. Drake had planned to sail around Cape Horn.

Heavy Sentence For Letter Theft

Montreal.—For stealing 12 letters, containing in all not more than 80 cents, Urie Gervais, a local mail bag opener, was sentenced to three years in the penitentiary.

Prosperity In Britain

Daily Mail Discovers Two Centres Where Trade Is Particularly Good

London.—In these times when so much doleful news with regard to the state of British industry is appearing in the newspapers, it is refreshing to find that The Daily Mail has discovered at least two prosperous centres in the country, Coventry and Leicester. Coventry is described by The Mail as the busiest place in the United Kingdom. The motor car factories there are working at the highest pressure, and The Mail attributes this happy state of affairs largely to the re-imposition of the McKenna duties. In Leicester the woollen and hosiery trades are said to be showing such improvement that but for the Australian tariff the town would be one of the most prosperous in the whole country.

The factories are working overtime and the export trade is good. The shoemaking industry is also prosperous.

Rumors Are Denied

Saskatchewan Co-operative Elevator Co. Refute Stories of Loss

Regina.—In view of rumors alleged to have originated in Winnipeg, that the Saskatchewan Co-operative Elevator Company sustained a heavy loss in handling last year's crop, the following statement was authorized by the company:

The policy of the Saskatchewan Co-operative Elevator Company is to make its financial statement public at the annual meeting of shareholders which will be held December 16 in Regina. The statement of the company's operations for the financial year 1924-25 will be going forward to all shareholders within the course of a few days however. The fact that a dividend of eight per cent. for the financial year 1924-25 which ended July 31 last, was declared and paid in August last amounting to approximately \$190,000, is a very clear indication that the company's operations last year were on a very successful basis.

Ready To Reduce Armaments

Britain and Japan Willing to Join in Action

Washington.—While the Inter-Parliamentary Union resolved to sponsor movements for world disarmament and protection of troublesome national border lands, spokesmen from the British and Japanese groups declared their government were ready to join with others in a concerted action for further reduction of armaments.

The resolution on armaments reduction, reported by Dr. P. Munch, of Denmark, expressed regret that expenditures for armaments by "most countries" showed a "serious increase," stated the necessity of giving nations a feeling of security, and called for a thorough examination by a special sub-committee of methods for reducing armaments, including the drafting of a technical scheme to bring this about. It was adopted without dissent.

Baseball Idol Passes

Christy Mathewson Dies As Result Of War Injuries

Saranac Lake, N.Y. — Christy Mathewson is dead.

Baseball's "Big Six" lost his fight against tuberculosis just as the game's great climax, the world series, in which he played an all-important part in 1915, had gotten underway in Pittsburgh.

More than five years ago, the great pitcher, loved and honored wherever the game is played, began what was to be a losing struggle.

Gassed in the World War in France, where he served with distinction, Mathewson returned from overseas to coach with the Giants, the club with whom he won his fame, but the illness which was finally to take his life, forced him to retire for recuperation in 1920.

Arrests Ensure Peace

Peking.—A mandate has been issued ordering the arrest of several politicians in the province of Chi-Li, who are alleged to have been urging General Wu Pei Fu to return to Honan and renew the civil war. It is believed here that the arrests are likely to ensure peace for several months.

CRITICIZES OUR CONTRIBUTION TO IMPERIAL NAVY

London.—Truth, the weekly paper which occasionally comments upon the paucity of Canada's contribution to the British navy, again returns to the subject of the Canadian naval contribution.

Truth suggests that the people of Canada might find something to think about in Premier Coates' reply to a deputation from the New Zealand Navy League, which waited upon him recently and urged the government to contribute a third battle cruiser to the British navy.

Premier Coates reminded the deputation that New Zealand's per capita contribution from Imperial naval defence had increased this year from eight to ten shillings, according to a Wellington dispatch to a London daily, and that, personally, he thought a steady development like this was better than precipitate action such as the Navy League urged.

Truth states that New Zealand's contribution to the Imperial navy next year would be nine shillings per head. It quotes the New Zealand as saying: "It is our job to do all that we can to keep the renewal of cruisers up to date."

The seaborne trade of Canada, Truth says, is very much greater than that of New Zealand, and Canada's western shores look out on the Pacific. Two lent destroyers are not much of a contribution to the navy of the empire, the paper adds.

How To Save

Interesting Booklet on Yearly Purchase Plan an Aid to Small Investors

An interesting and valuable little booklet is published by Burnett Sainte Clair & Co., investment bankers of Montreal, setting out an excellent plan whereby the public of Canada may buy good securities and pay for them over a period of one year. The object is to cultivate the habit of saving money among people who have never been accustomed to buying securities, and to show them how profitable it will be for them to invest their savings in this way and spread the payments over a year.

Good securities can be bought on this plan, with all the opportunities of taking advantage of market variations, and yet the investor has an entire year in which to pay off the balance due on his account. Under this plan the investor pays 25 per cent. of the purchase price on placing the order, and the balance, including the customary interest, in eleven equal monthly instalments. The book outlining this plan can be obtained upon application to the company at its Montreal office, Canada Cement Building, Phillips Square.

Heads Big Implement Company

Toronto.—The appointment of Joseph N. Shenstone as president of the Massey Harris Company in succession to Hon. Vincent Massey, who resigned several days ago, was announced here.

Closed Halibut Season

Vancouver.—At the closing session here of the international halibut commission it was decided to again enforce the closed season on halibut for the next two years, the dates being from November 15 to February 15.

A Move For Peace

Gods of War Receive Rebuffs At Inter-parliamentary Meeting

Washington.—The gods of war are receiving telling rebuffs. World parliamentary leaders here approved unarmed frontier zones and unanimously called on the United States once more to summon the world to the peace table.

The demilitarizing zone plan was offered to the Interparliamentary Union by the British, with notable unanimity among the 41 nations gathered. The union not only subscribed to the plans for universal peace, but heard delegates of Japan and Great Britain urge the United States to take the initiative. First of the nations to call for cessation of strife was Japan, France, Great Britain and Germany quickly approved.

Great Britain, through R. S. Hudson, declared its willingness to "join with any great powers in any conference for the further limitation of naval armaments or for the reduction of land armaments."

Saskatchewan Dairy Pool

Intensive Campaign For Members To Be Launched At Once

Regina, Sask.—Canvassers working on a commission basis will launch a sign-up campaign for contracts in connection with the Saskatchewan Dairy Pool Limited, which has opened headquarters in this city.

The territory to be covered includes a radius of about fifty miles north and south of Regina between the Capital City and Moose Jaw, and east to the Manitoba boundary. The pool will not operate according to the contract until 75 per cent. of the dairy products shipped to the Regina market have been signed up. November 1 is the closing date, but the directors have power to extend the time limit another 60 days.

Arguing Over Treaty

French Official Circles Pessimistic Over Demands of Germany

Paris.—Members of the German delegation attempting to draw up a new commercial treaty between France and Germany handed Charles Chaumet, French minister of commerce, a note containing German proposals, framed with a view to finding a new basis for the resumption of negotiations. French official circles maintain a pessimistic view of the German demands for most favored nation treatment without offering what the French consider adequate reciprocity.

Turkish Students Stage Demonstration

Constantinople.—The second anniversary of the arrival of Mustapha Kemal Pasha's forces in Constantinople was observed Oct. 7 as a public holiday. Groups of students paraded the streets and staged demonstrations before the British embassy, shouting "We want Mosul" and "Down with England." No other incidents were reported.

Distress Signal Unintentional

Seattle, Wash.—Distress signals received here from an unidentified vessel in the Pacific Ocean were sent unintentionally by some member of the crew of the lightship Unadilla, while he was tinkering with the ship's apparatus in the absence of the operator, it was reported by the Seattle Harbor Radio Station.

West Canada Livestock Union

Saskatoon.—The 13th annual convention of the Western Canada Livestock Union is to be held, for the first time, in Saskatoon in January. S. W. Jones, of the Saskatoon exhibition announced. The convention was placed here, he said, because of the great gains made in the livestock industry in this district in recent years.

Quell Syrian Uprising

Beirut, Syria.—A Syrian cavalry squadron has put down what is described as a local uprising at Hamah, killing or wounding 30 of the demonstrators. The crowd, which included many Bedouins, menaced the public buildings, disarmed the local police and are reported to have set fire to the palace before the cavalry arrived.

Wilkesbarre, Pa.—Probably fatally scalded when steam flooded their locomotive, Gus Gelsner, engineer, and Robert Matthews, fireman, stuck to their posts until they had brought their train to a stop and saved their passengers' lives.

WILL STIMULATE CATTLE EXPORTS TO GREAT BRITAIN

Saskatoon.—To stimulate the export to Great Britain of Canadian cattle by providing transportation facilities designed to permit of the exportation of cattle in large lots, the federal department of agriculture has secured the verbal consent of the British board of trade and ministry of agriculture to the admission to Great Britain of cattle shipped in lots of 1,100 instead of the present shipload limit of 500. Hon. W. R. Motherwell, minister of agriculture, announced here this morning.

Mr. Motherwell was in receipt of a cable from W. A. Wilson, former dairy commissioner for Saskatchewan, and now Canada's agricultural products representative in Great Britain announcing the agreement.

"The agreement has been completed following a conference held on September 21 between the British ministry of agriculture and the Dominion department represented by Mr. Wilson and Dr. Barker. A few days later a second conference was held at which representatives of the marine department, shipowners and cattle men were also present," said Mr. Motherwell.

Until the present ever since the British embargo was removed from Canadian cattle, the shipload limit has been 500 head of cattle. Since the embargo was removed the exportation of Canadian cattle has increased to the point where it has become necessary to provide transportation facilities better suitable to the volume of exportation.

The minister of agriculture also felt assured that with the provision for additional exportation facilities cattle exportation should receive a decided impetus. In opening negotiations for the objective now reached he had done so at the request of Canadian cattle exporters.

Probing Tangle In Europe

Committee of Interparliamentary Union Will Investigate Economic Barriers

Washington.—The Interparliamentary Union conference, in final session here, adopted a resolution calling for an investigation of economic barriers between European nations, with a view to their ultimate extinction.

The resolution, which was adopted without objection, was introduced by H. J. Procope, of Finland, as a substitute for one presented by Adolf Braun, of Germany, recommending the creation of a customs understanding between European nations.

The Procope resolution directs a sub-committee of the conference committee on economic and financial questions to study the problem and report to the next conference.

Advises Young Mothers

—The Maitland Photo Studio

MRS. CLAYTON HURAS

Stratford, Ont.—"Dr. Pierce's Favorite Prescription gives strength and is the greatest help in motherhood of any medicine I know of. I have four very healthy children and during each expectant period I took 'Favorite Prescription' and just got along fine, my strength kept up and I had no distress or suffering to speak of, which most women have to endure at this time. 'Favorite Prescription' keeps a woman in perfect physical condition all thru this trying period."—Mrs. Clayton Huras, 215 Railway Ave.

AROUND THE TOWN

Mrs. James Henderson and family left on Wednesday to visit friends in Winnipeg.

Mr. and Mrs. W. Miller arrived on Tuesday from Pennant Sask., and will visit here for a few days.

See windows of J. V. Berscht's store on Friday for display of spuds collected in his competition.

A whist drive and dance will be held in the Opera House on Friday October 23rd, by the local Chapter, O.E.S.

Mrs. Campbell of Carstairs, formerly of Didsbury, attended the session of the O.E.S. here on Tuesday of last week.

Mrs. Baker of Formoso, Ontario, who has been visiting her brother, W. Durrer, returned home on Saturday last.

There will be no picture shown at the Opera House on Saturday of this week, the hall having been engaged for a political meeting.

Miss J. Hamilton has arrived to attend the wedding of her niece, Miss Marion Gibbs, and is a guest of Mr. and Mrs. C. W. Gibbs during her stay here.

The Didsbury Hockey Club are announcing the approach of their Season by holding a whist drive and dance in the I.O.O.F. hall tomorrow (Friday) night.

A. A. Revell was in town on Tuesday, and although still using crutches, his leg nevertheless is making good progress, and another couple of months will probably see him lining up with the hockey team.

Rev. Herbert Clay, who has been on an extended trip to England, has notified his parishioners, both here and at Olds, that he expects to return on the morning of Saturday, October 31st and will (D.V.) conduct service at St. Cyprian's church, Didsbury, on Sunday, November 1st, at three p.m.

The Didsbury Opera House is scheduled for another good picture on Wednesday, October 21st, when Mr. Sharp presents to his local patrons "The Pony Express," a production by James Cruze. It is said that this picture out-rides the "Covered Wagon." It is a ten reel production, and the admission fee will be 35c and 75c, including tax.

Threshing is still retarded by weather conditions, and although several of our farmers tempted by a temporary spell of fine weather have recommenced operations, one has yet to hear of an instance where they were completed. The grain is still wet and a good drying wind will be necessary ere much progress can be recorded.

The world series of baseball games which began last week between the Pittsburgh Pirates and Washington Senators, and broadcast by the Calgary Herald, have been caught up by a recently installed radio in the tenuous department of McCloy and Johnson. From the look of contentment that steals over the faces of those occupying the chairs one would say that the service is appreciated.

On Tuesday evening of last week, the occasion of the visit of the Grand Worthy Matron of the Grand Chapter of Alberta, on her annual official visit the members of St. Hilda's Chapter, O.E.S., took advantage of the opportunity to present their esteemed visitor with a slight token of their regard. The evening was a most enjoyable one, enhanced considerably by the presence of a number of visitors from Innisfail, Olds and surrounding district.
